ABOUT ME

I'm Julius Nossoll Testorf, a transportation interior design student passionate about creating innovative and meaningful mobility concepts. I am currently approaching my 5th semester and enjoy exploring new design approaches and combining strong aesthetics with user experience, storytelling and feasible solutions.

MY *_____ SKILLS

HARD

- Adobe Photoshop 8/10
- Adobe Illustrator 6/10
- Autodesk Alias 6/10
- Blender 9/10
- Vizcom 7/10
- Premiere Pro 7/10

SOFT

- Sociability
- Adaptability
- Attention to Detail
- Problem Solving
- Creative Thinking
- Optimism
- Patience

LANGUAGE

- German Native
- English C1 / Fluent

MONARCH

GEELY SKYWALKER

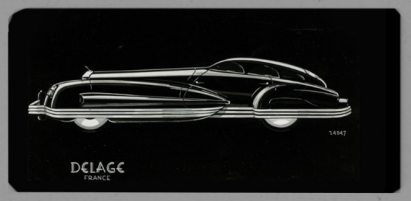

Developed with the Geely Innovation Center Milan, Skywalker is a European electric grand tourer for young couples and their dog. Inspired by yacht architecture and timeless craftsmanship, it turns the vehicle into a refined space for shared moments.

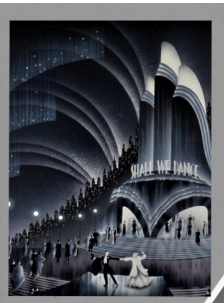

4th Semester Project

01

ART DECO

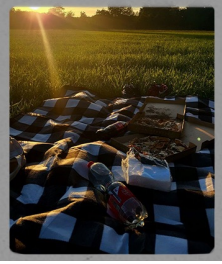

DESIGN INSPIRATION

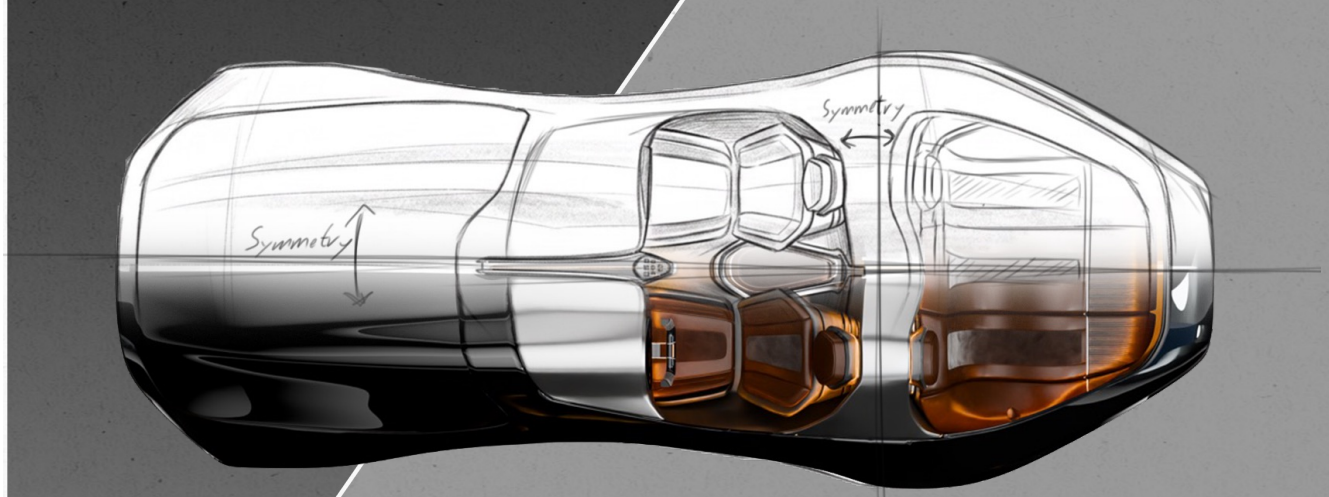

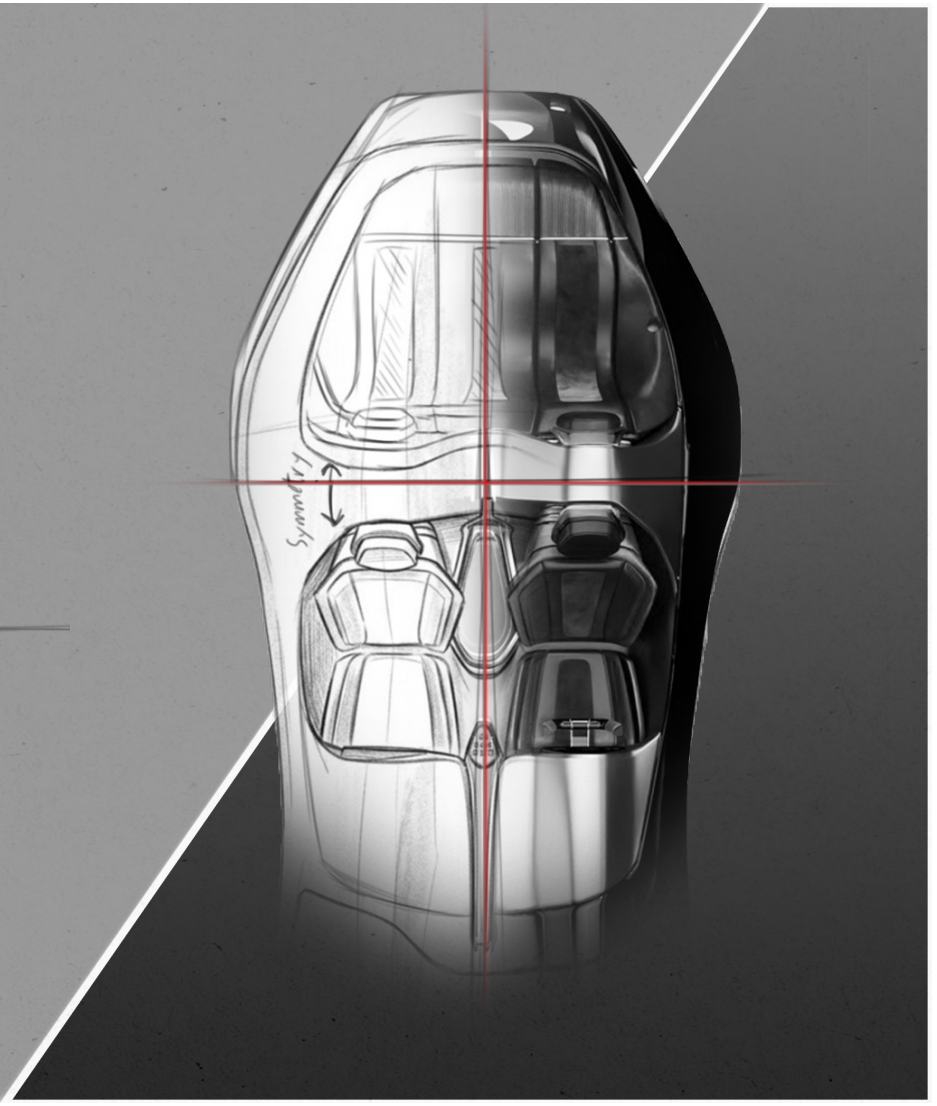

YACHT DESIGN

INTERIOR PACKAGE CONCEPT

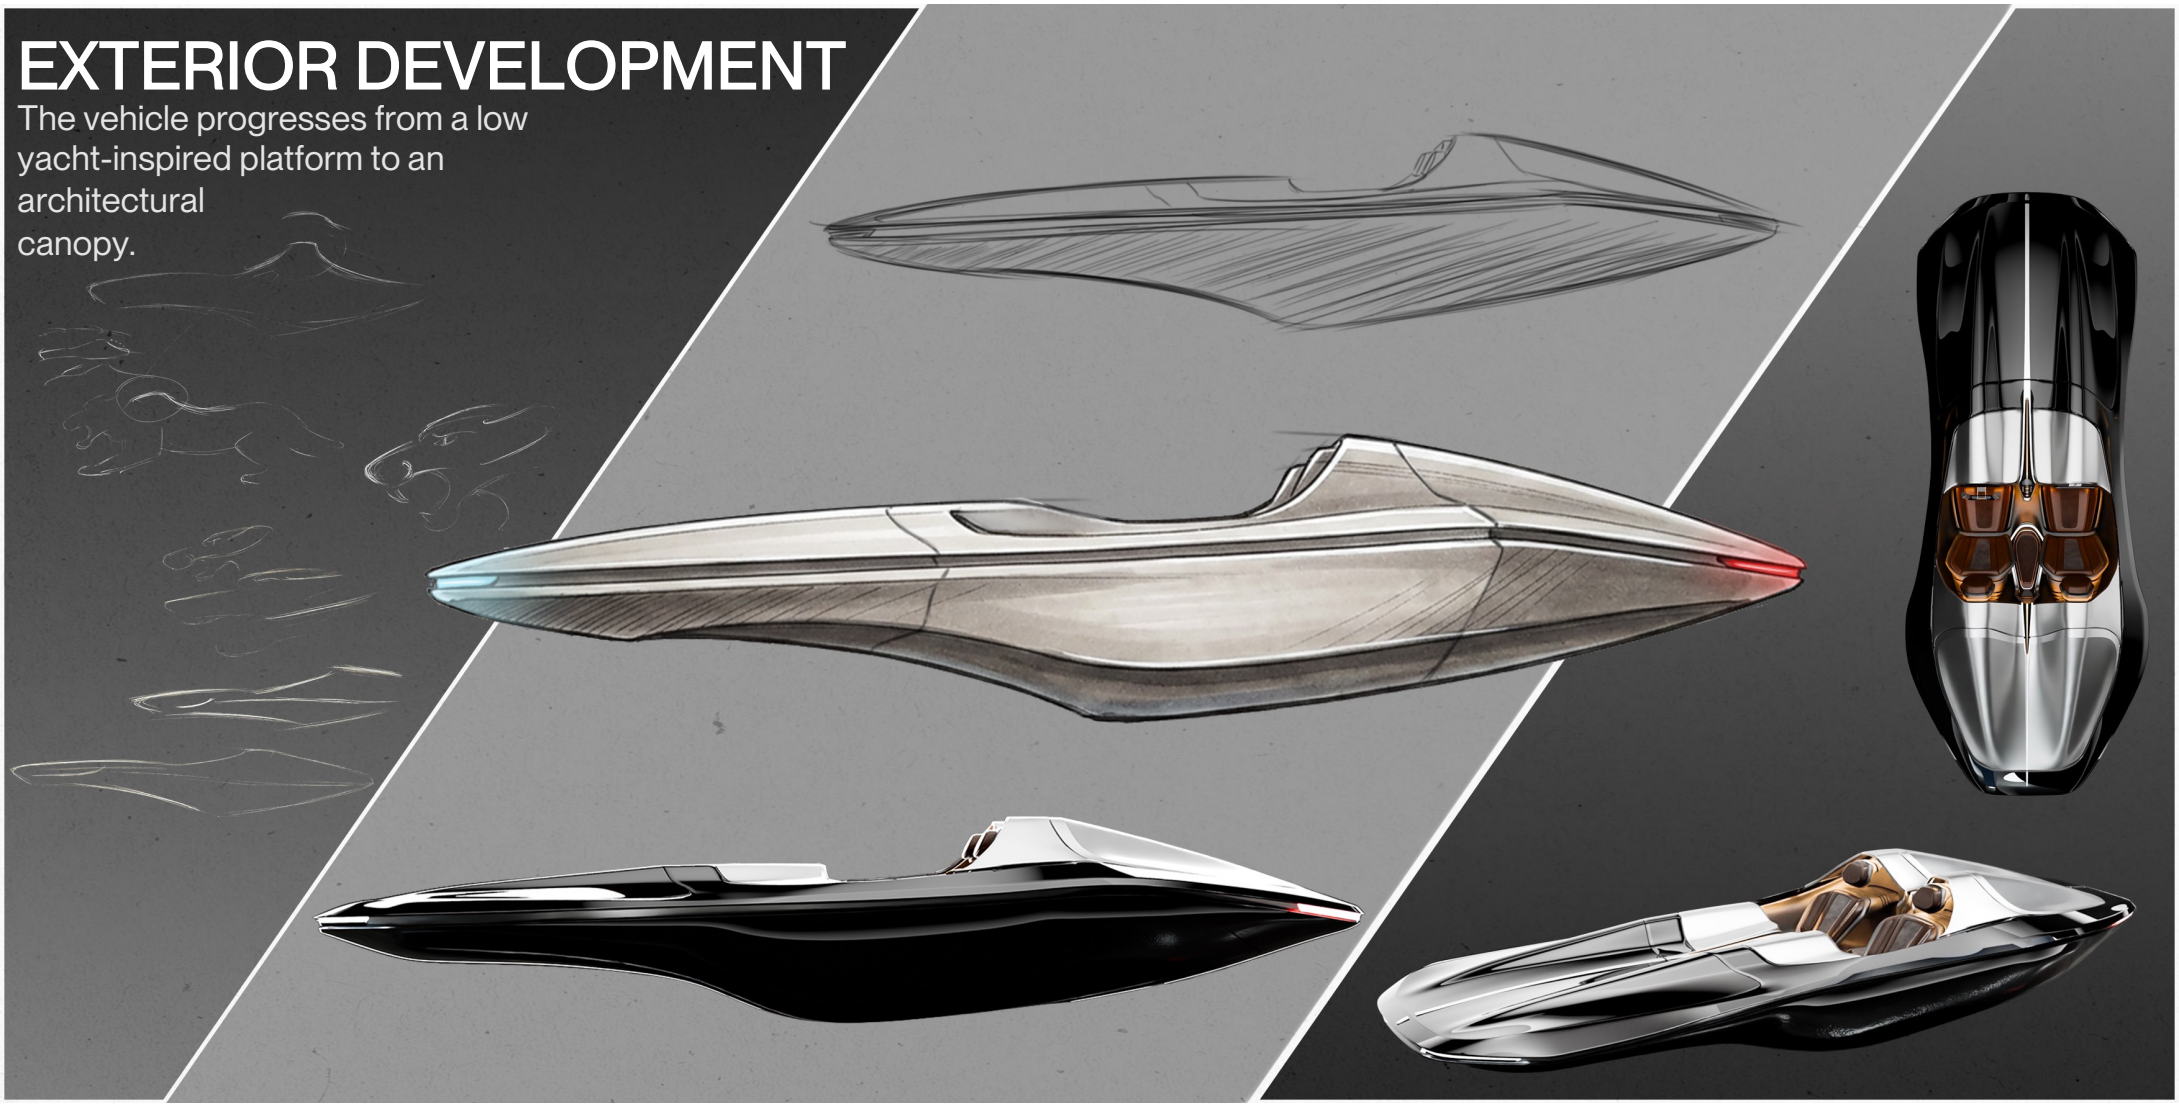

A symmetrical front cabin and flexible rear lounge oriented along two Central Axes define the architecture.

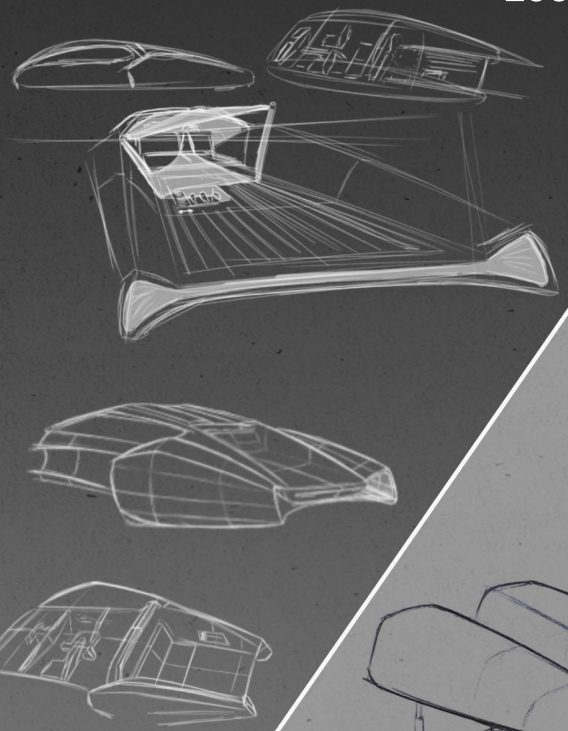

EXTERIOR DEVELOPMENT

The vehicle progresses from a low yacht-inspired platform to an architectural canopy.

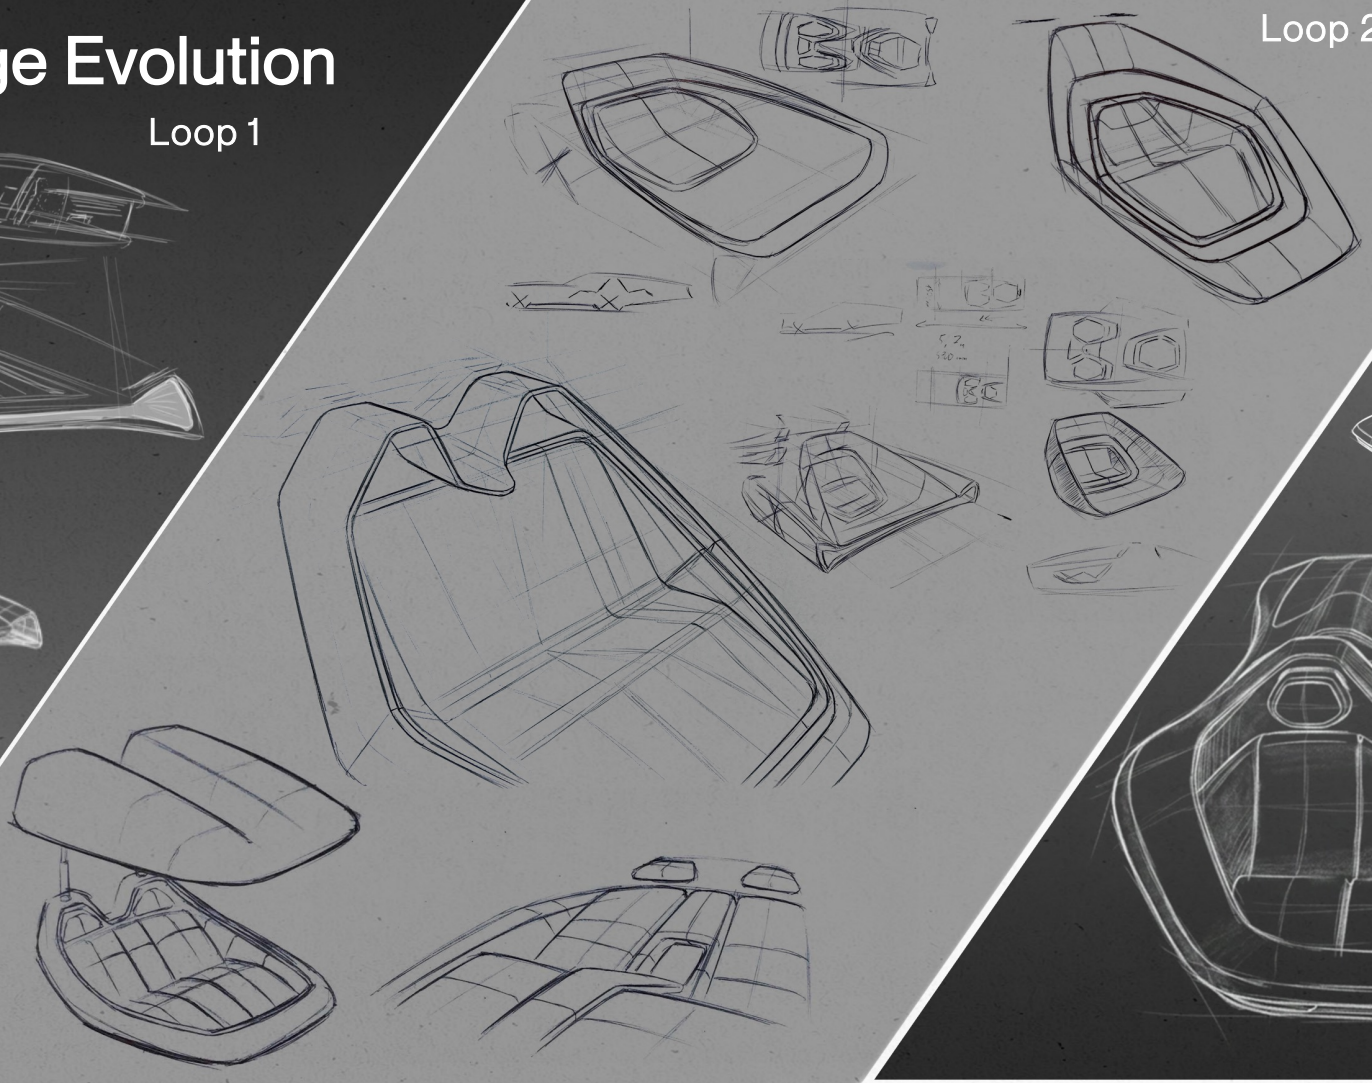

Rear Lounge Evolution

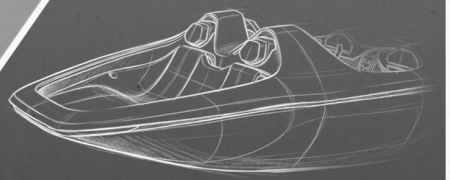

Loop 1

Loop 2

Loop 3

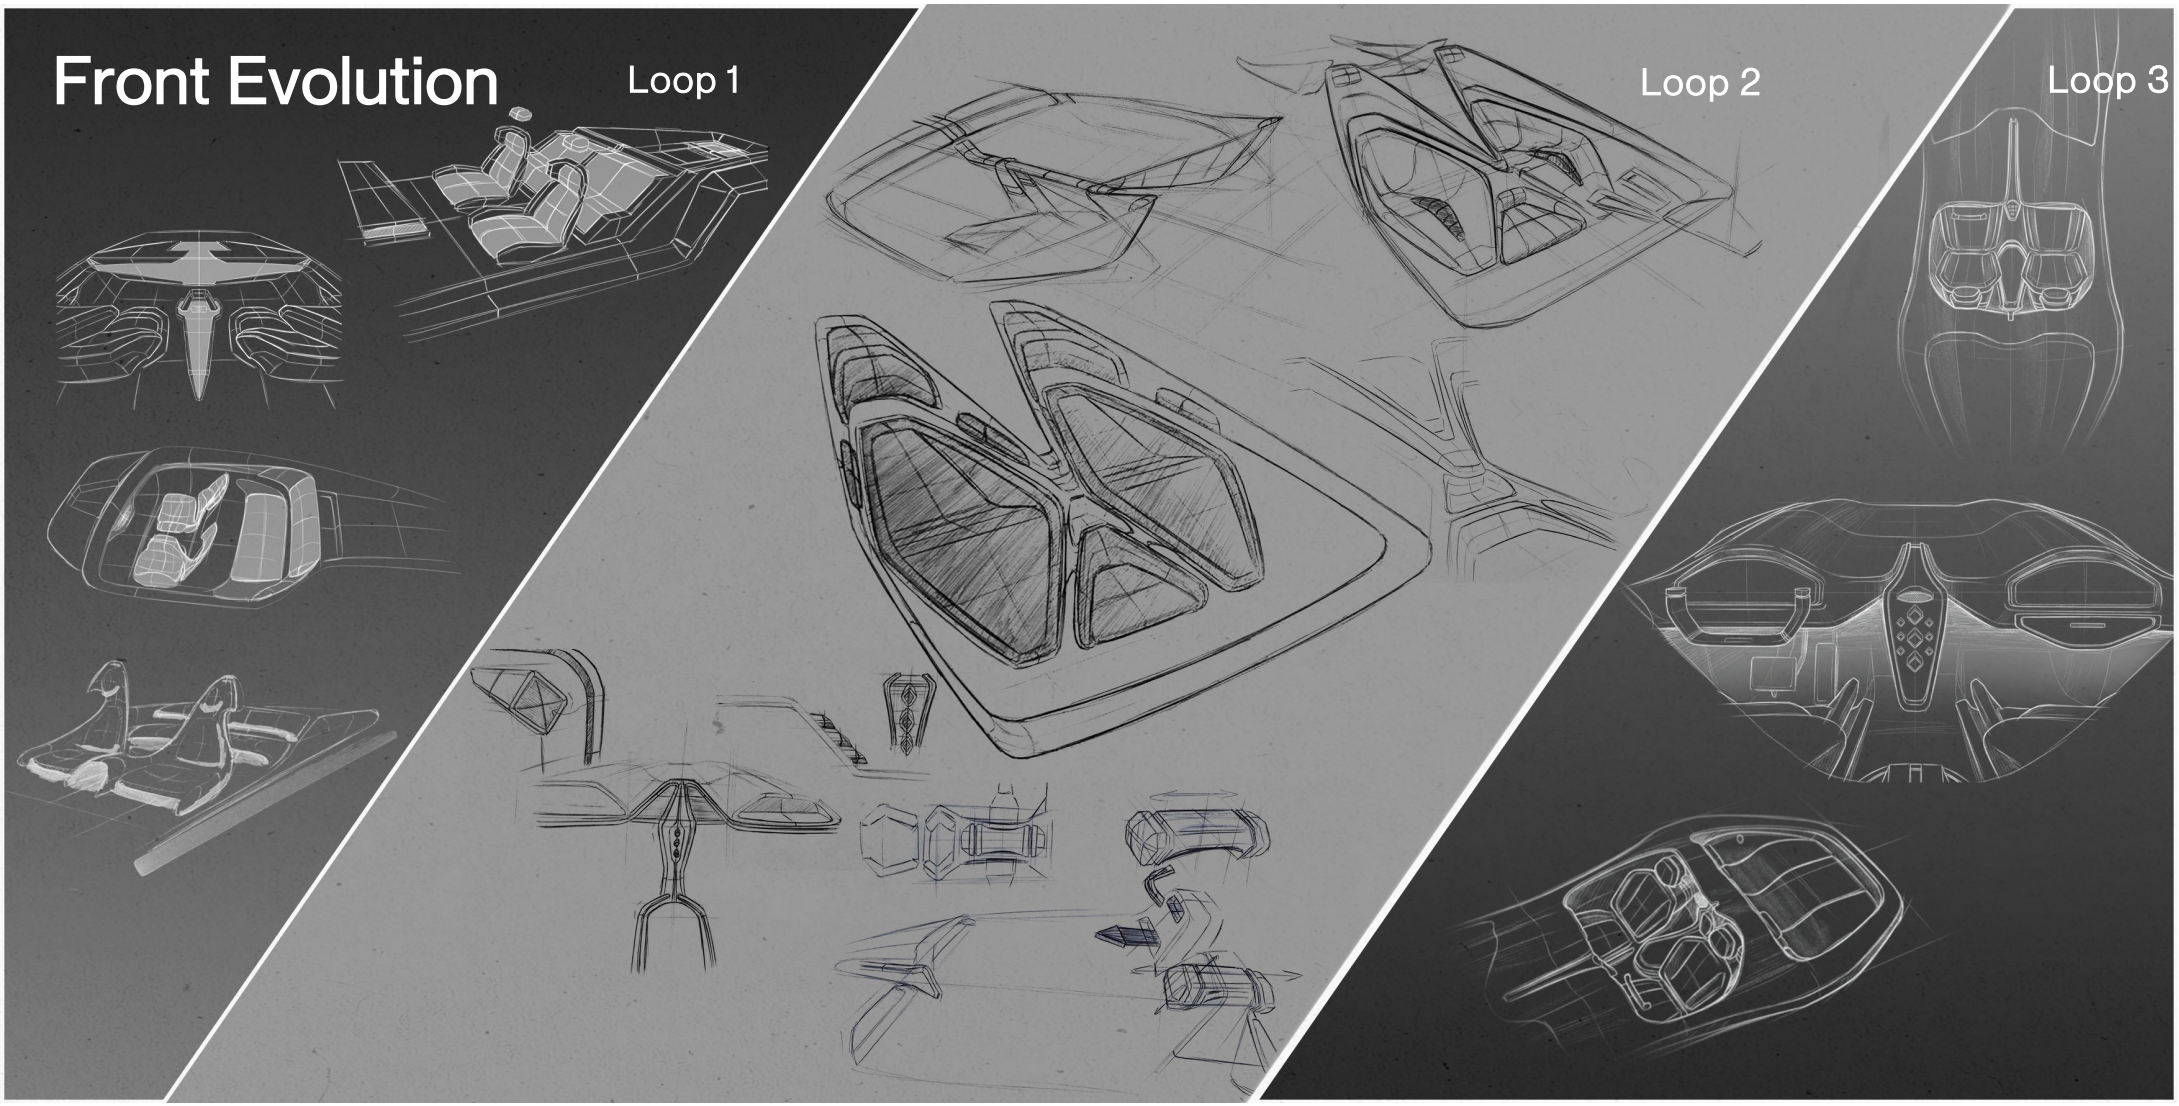

Rear Lounge Renderings

Front Evolution

Loop 1

Front Renderings

FINAL RENDERING

MAN
VYRA

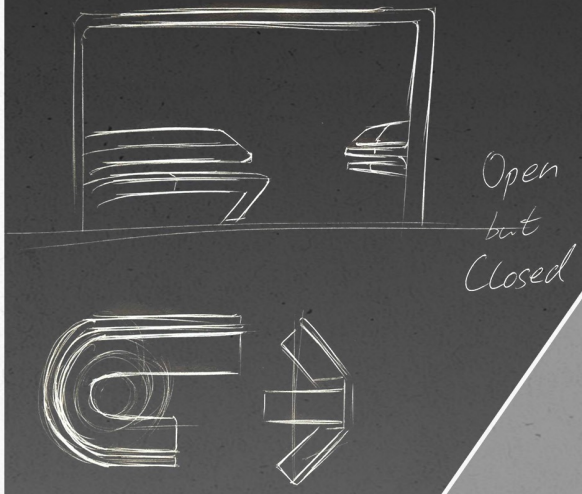

VYRA explores how a lounge space can Hybridly be used as an office space while maintaining visual connection and an open feeling.

3rd Semester Project

Core Concept

Combine Office and open lounge area in one continuous space

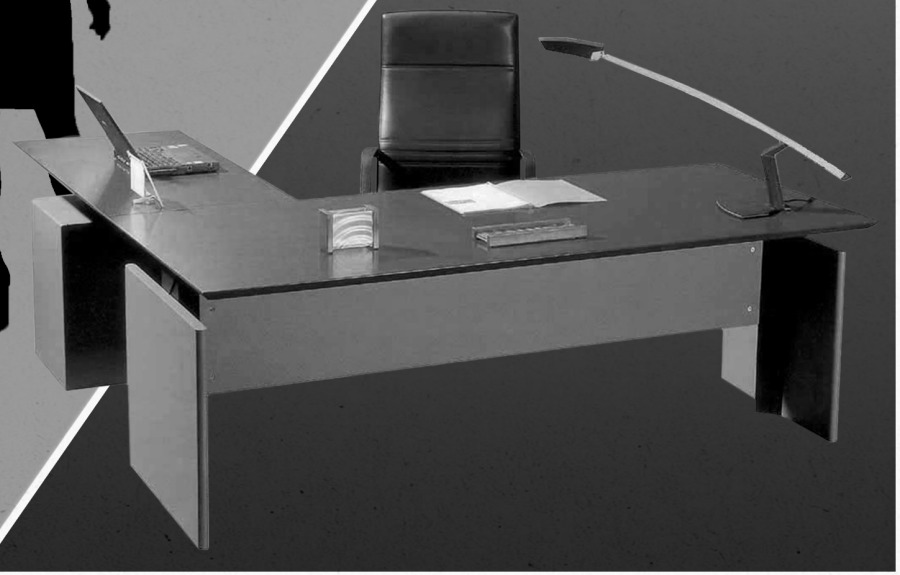

Lounge

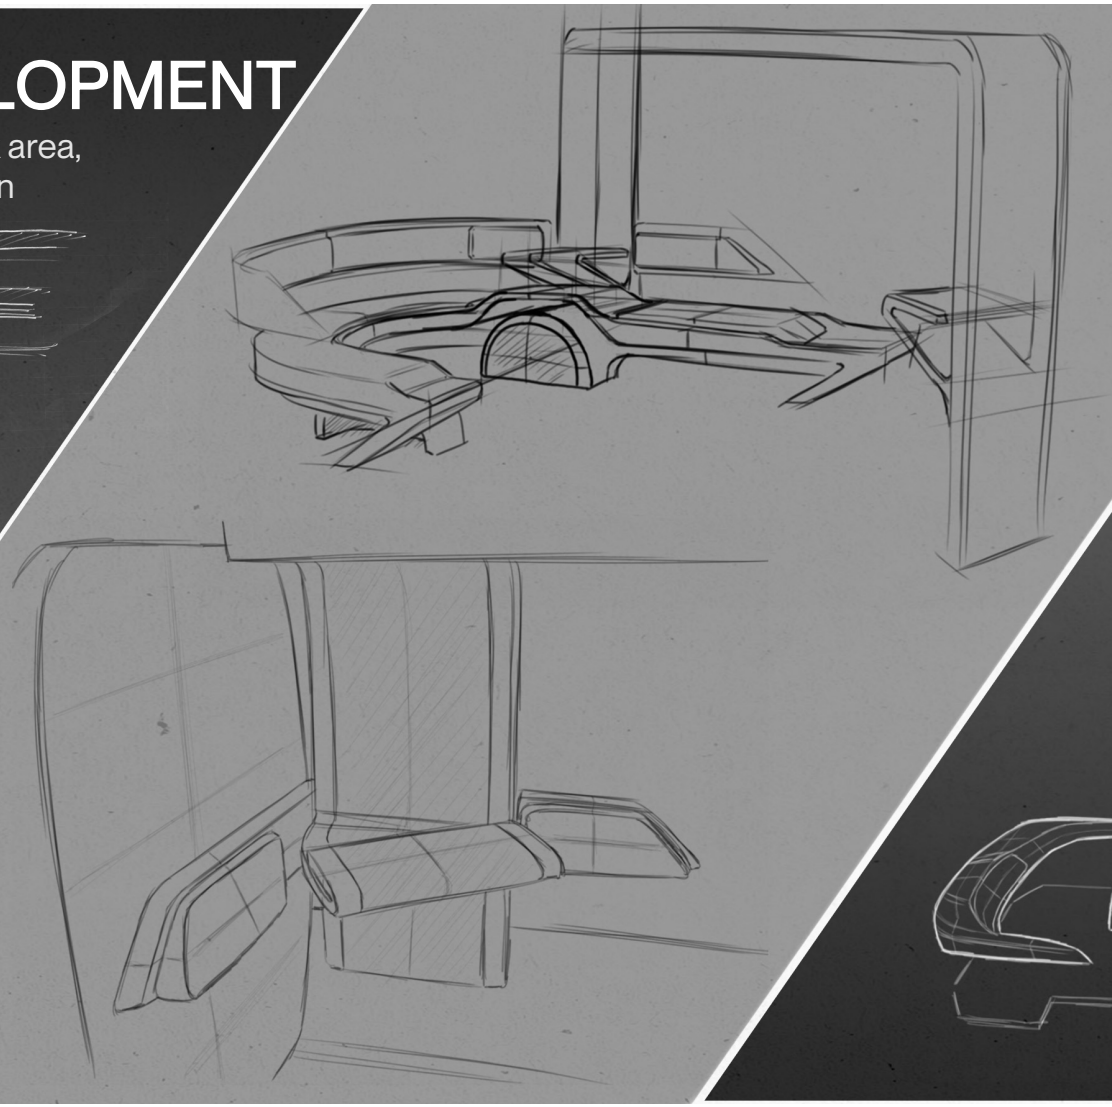

Office

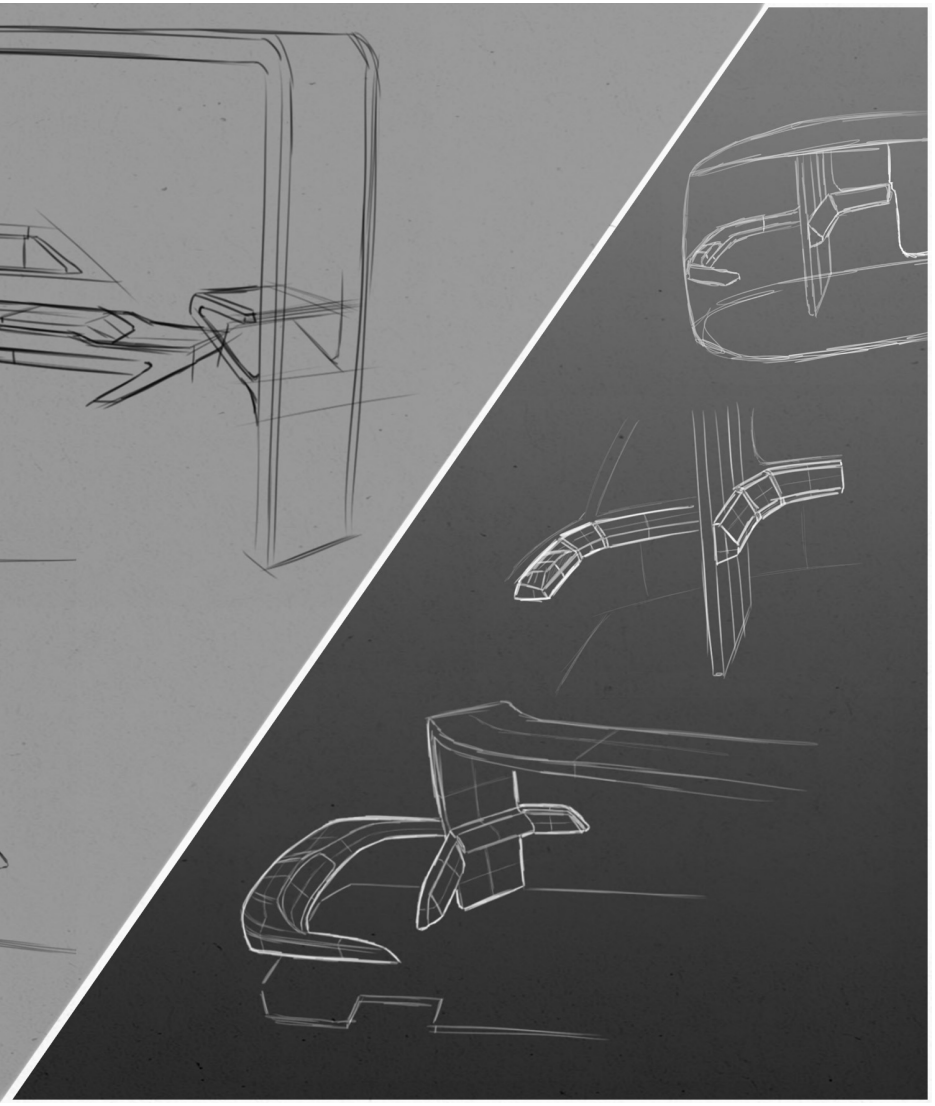

INTERIOR DEVELOPMENT

A large seating area & a small work area,
enclosed by an overarching column

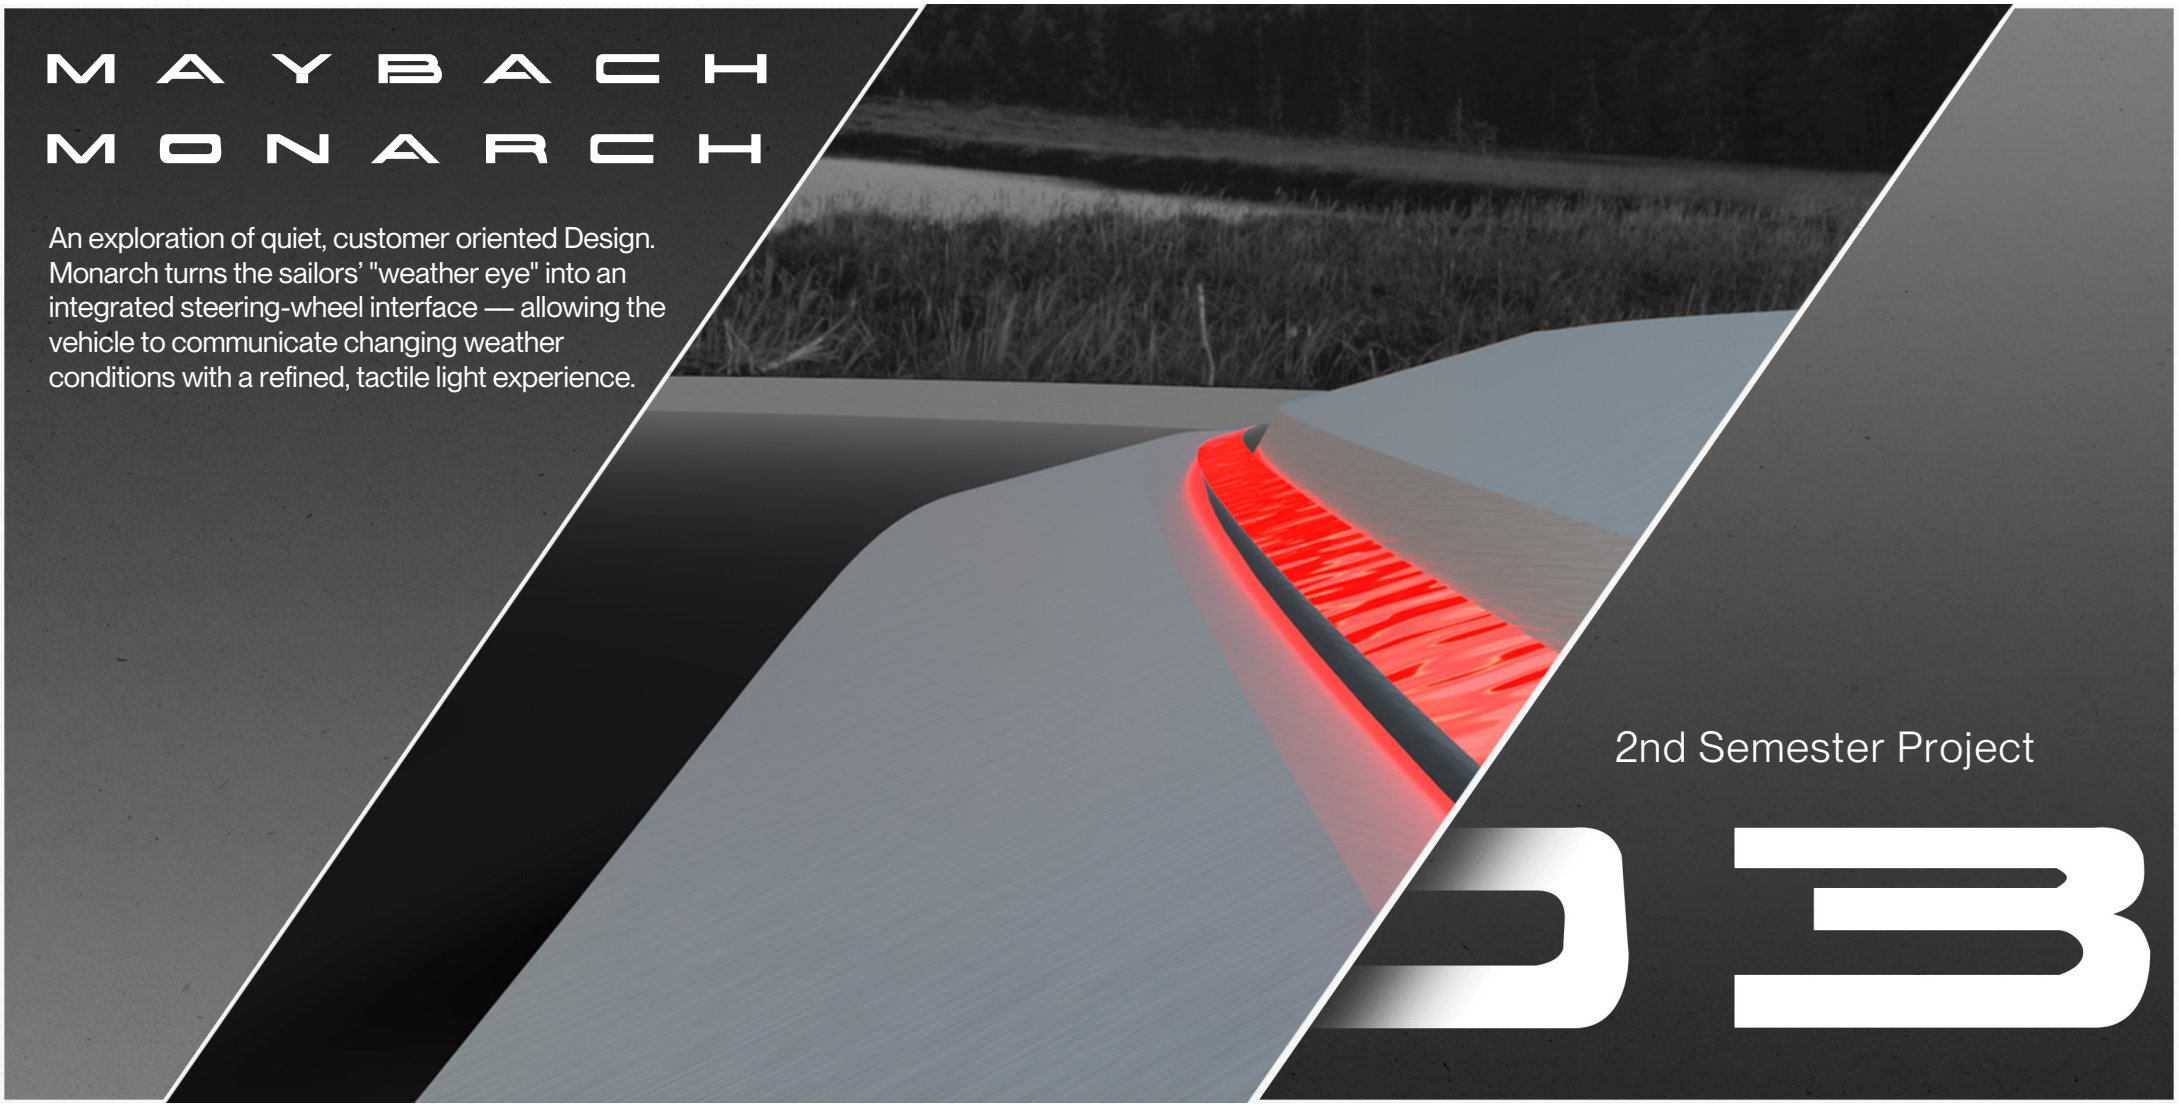

FINAL RENDERING

MAYBACH MONARCH

An exploration of quiet, customer oriented Design. Monarch turns the sailors' "weather eye" into an integrated steering-wheel interface — allowing the vehicle to communicate changing weather conditions with a refined, tactile light experience.

2nd Semester Project

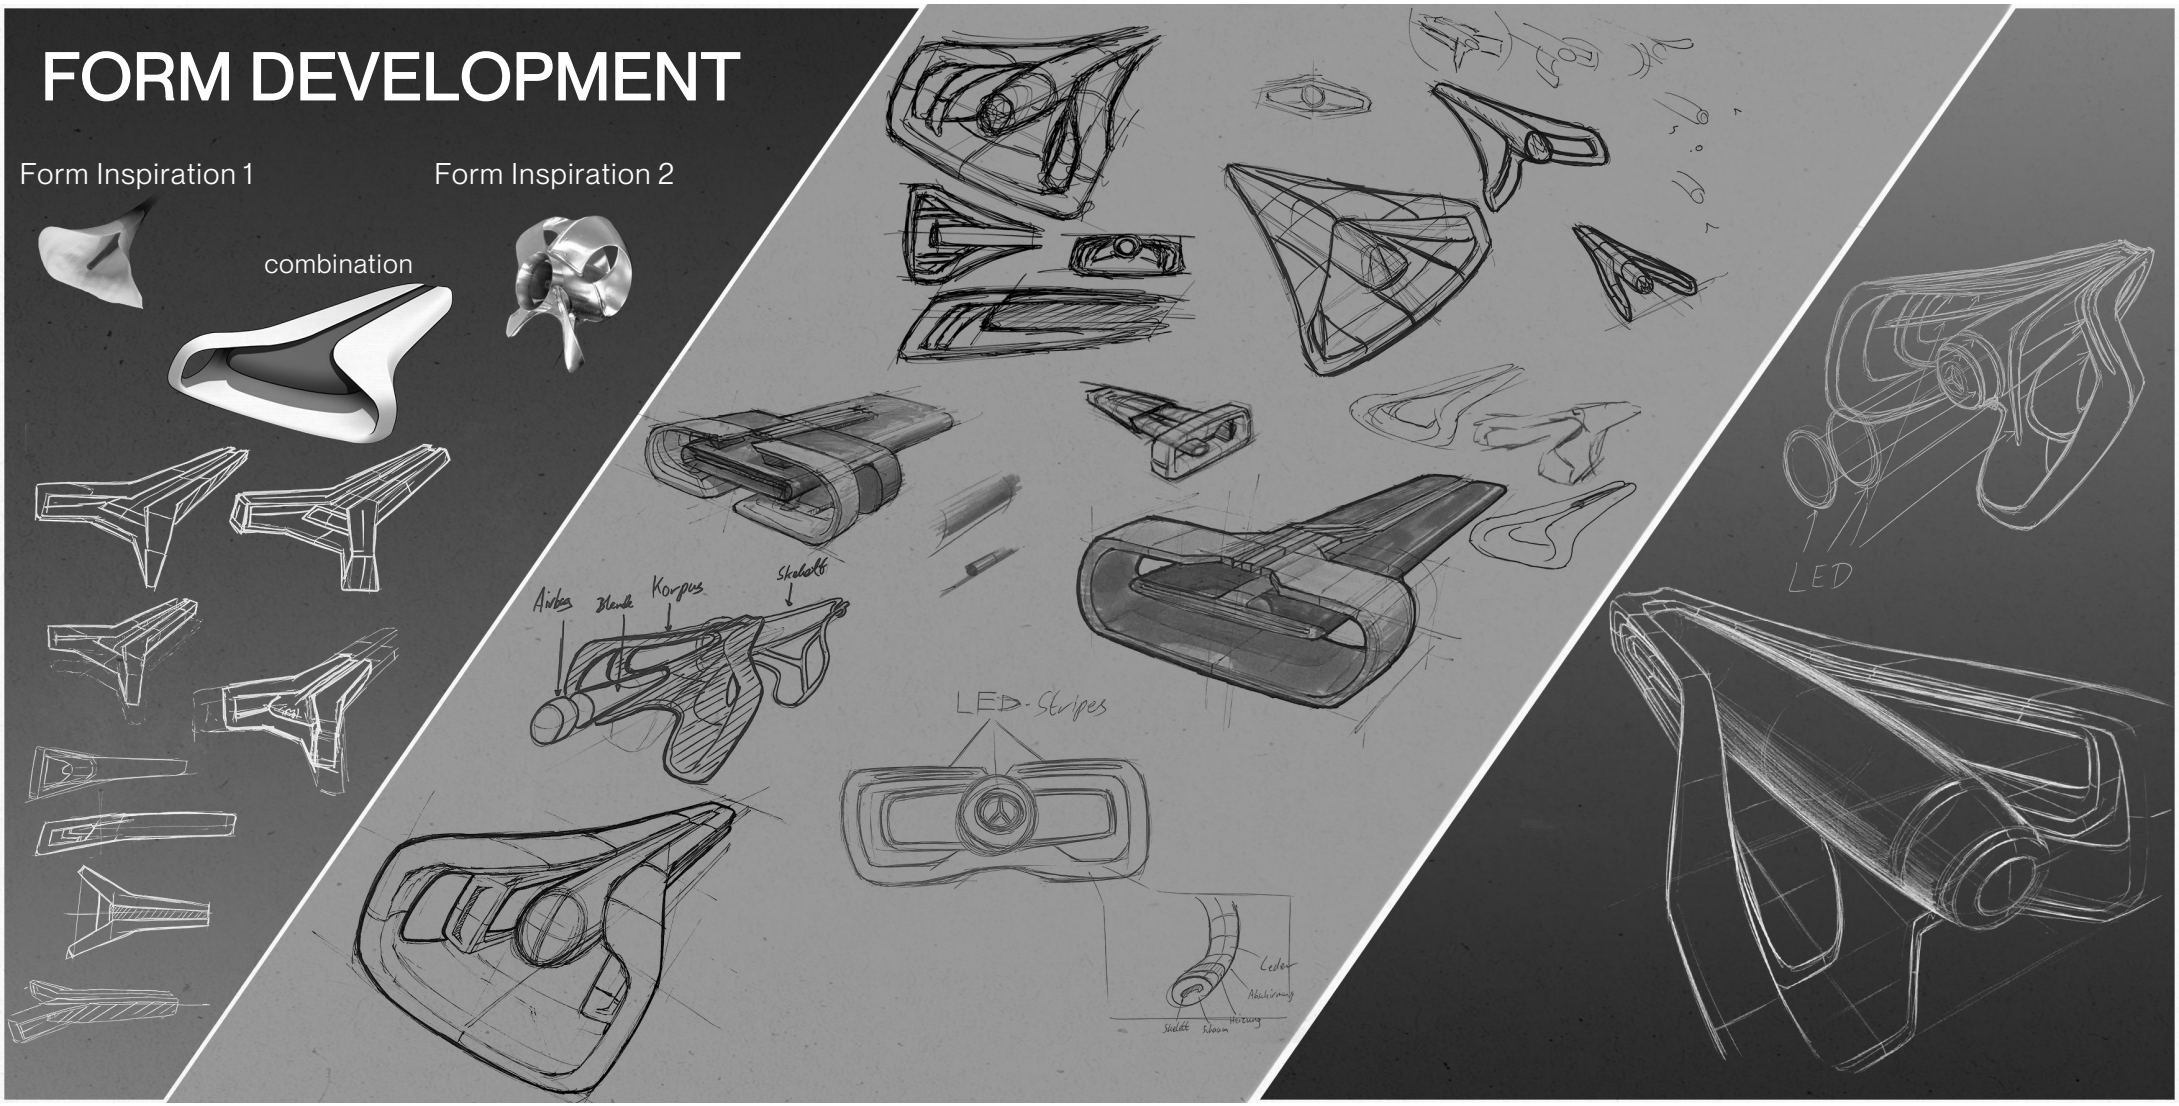

D3

FORM DEVELOPMENT

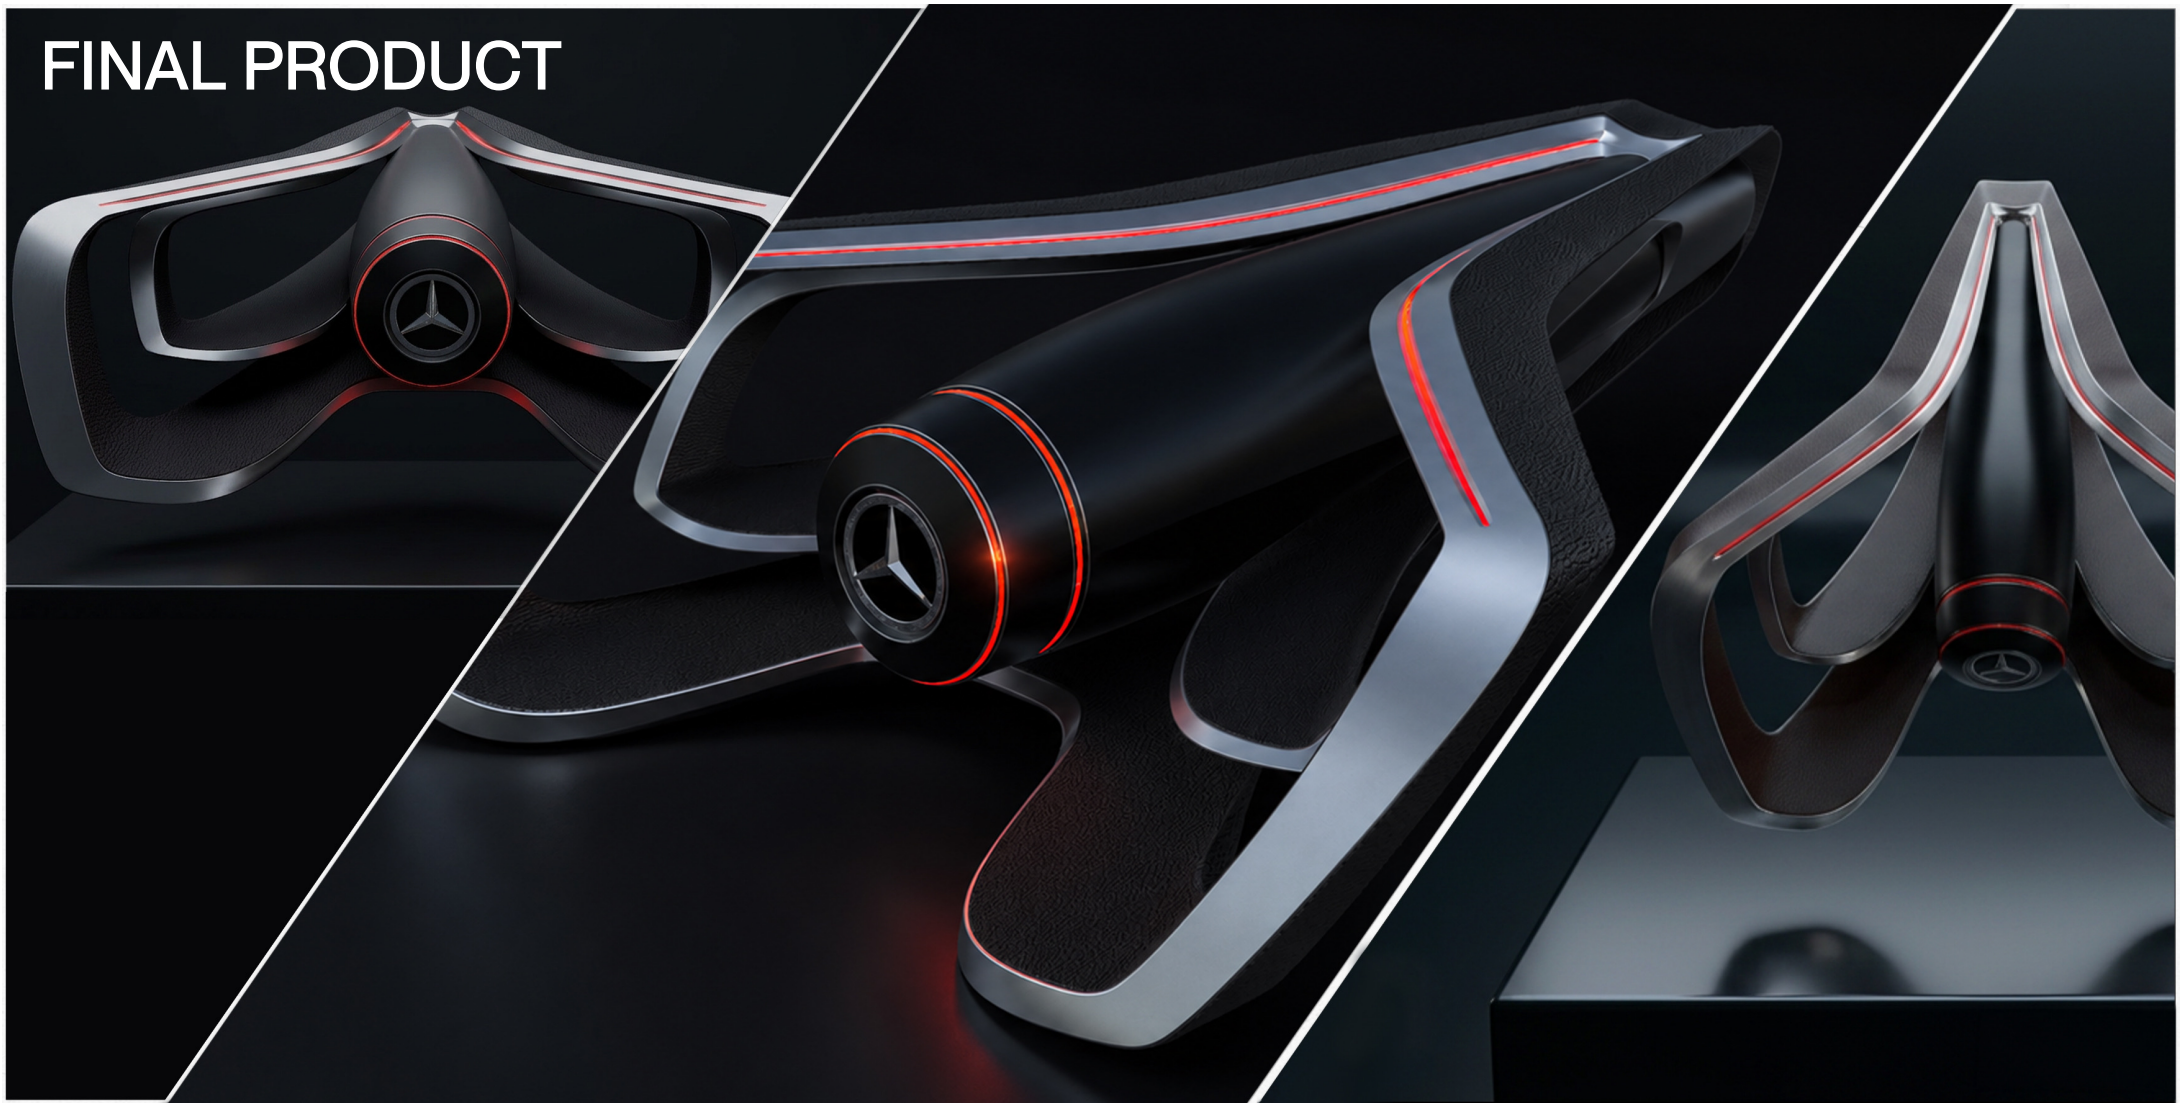

Form Inspiration 1

Form Inspiration 2

combination

Function
Haptic and visual warnings regarding their environment to the driver through the steerin unit
Cold weather Warning
Hot weather Warning
Fog Warning
